■ BUG REPORT BP-1

in list <u>Duel Duo Testing</u>

Labels Notifications

Description Edit

The winning is counted as Lose

Steps to reproduce:

- start the app with npm start
- access the app at http://localhost:8000
- click on the "Draw" button
- add two bot cards to player-duo, randomly pick one bot card, click on the "Add to Duo" button. Randomly pick another bot card, click on the "Add to Duo" button,
- · click on the "DUEL!" button,
- if you win, the Wins will stay at zero, but Losses will increment by one
- repeat above procedures few times, make sure you at least win once and loss once, you will see the bug

Expected result:

• when player wins, Wins increment by one.

Actual result:

• when player wins, Losses increment by one.

Environment:

Operating system: MacOs

Browser: Google Chrome
